HIGH RISK EMPLOYEE SEGMENTS

- Sales Executives
- Laboratory Technicians
- Employees working overtime
- Employees with Job Satisfaction ≤ 2
- Employees with Work-Life Balance ≤ 2
- Employees with less than 5 years tenure.

BUSINESS RECOMMENDATIONS

- Focus retention efforts on Sales department.
- Implement work-life balance initiatives.
- Monitor high-risk employees proactively.
- Review compensation structures.
- Strengthen employee recognition programs.

RETENTION STRATEGIES

1. Reduce excessive overtime.
2. Improve employee engagement programs.
3. Conduct monthly satisfaction surveys.
4. Introduce flexible work policies.
5. Provide career growth opportunities.

Summary

The analysis identified an attrition rate of 16.12% among 1,470 employees. Overtime, low job satisfaction, and poor work-life balance were the primary drivers of employee attrition. Sales Executives and Laboratory Technicians were identified as high-risk employee groups. HR should focus on employee engagement, career development, compensation review, and work-life balance initiatives to improve retention and reduce turnover.
